

PUBLIC AUCTION OF FINE ROCKCASTLE FARM WE WILL ON

September 4, 1918, at 2 o'clock

On account of the old age of the owner, Mr. D. G. Martin, sell at public auction the farm, known as the Dave Martin Farm, consisting of 496 acres, 4 miles from Berea, in Rockcastle county, on the edge of the Madison-Rockcastle line. It is one of the best timber and stock farms in the State of Kentucky, there being estimated nearly 5,000 ties and 300,000 feet of saw timber on the place. All the saw timber is pine and oak. The L. & N. Railroad has a station on each end of the farm.

About 150 acres of farm is cleared and in high state of cultivation. Has a good dwelling house, tenant house, barns and all improvements. Is close to Post Office and Berea College and has good roads leading in every direction. Well watered with running water.

As this farm is susceptible of subdivision it will be offered first in two tracts and then as a whole and the bid which realizes the most money accepted.

Tract No. 1—Contains about 296 acres and includes all the improvements and most all of the cleared land. There is some saw and tie timber on this tract.

Tract No. 2—Consists of 200 acres and includes most of the timber. There is some cleared land on this tract and is a fine building site.

The farm as a whole is a good place and is one of if not the finest cattle and sheep farms in the state. Possession given January 1, 1919, with seeding privileges this fall.

TERMS: One-third cash, balance in one and two years with interest at 6 per cent. Lien retained on the land for deferred payments.

A STATEMENT BY THE PRESIDENT.

President Wilson, in a personal statement addressed to his fellow countrymen, denouncing mob spirit and mob action, called upon the Nation Friday to show the world that while it fights for democracy on foreign fields it is not destroying democracy at home.

The President's statement in full follows:

"My Fellow Countrymen: I take the liberty of addressing you upon a subject which so vitally affects the honor of the Nation and the very character and integrity of our institutions that I trust you will think me justified in speaking very plainly about it.

LOYALTY CAN'T JUSTIFY MOBS.

"I allude to the mob spirit which recently here and there very frequently has shown its head amongst us, not in any single region, but in many and widely separated parts of the country. There has been many lynchings, and every one of them has been a blow at the heart of ordered law and humane justice.

"No man who loves America, no man who really cares for her fame and honor and character or who is truly loyal to her institutions, can justify mob actions while the courts of justice are open and the government of the states and the Nation are ready and able to do their duty.

"We are at this very moment fighting lawless passions. Germany has outlawed herself among the nations because she has disregarded the sacred obligations of law and has made lynchings of her armies. Lynchers emulate her disgraceful example. I, for my part, am eager to see every community in America rise above the level, with pride and a fixed resolution which no man or set of men can afford to despise.

A BETRAYAL OF COUNTRY.

"We proudly claim to be the champions of democracy. If we really are in deed and in truth, let us see to it that we do not discredit our own. I say plainly that every American who takes part in the action of a mob or gives any sort of countenance is no true son of this great democracy, but its betrayer and does more to discredit her by that single disloyalty to her standards of law and of right than the words of her statesmen or of the sacrifices of her heroic boys in the trenches can do to make suffering peoples believe her to be their savior. How shall we recommend democracy to the acceptance of other peoples if we disgrace our own by proving that it is, after all, no protection to the weak?

"Every mob contributes to German lies about the United States what her most gifted liars cannot improve upon by the way of calumny. They can at least say that such things cannot happen in Germany except in times of revolutions, when law is swept away.

ASKS EVIL BE ENDED.

"I therefore very earnestly and solemnly beg that the governors of all the states, the law officers of every community, and above all, the men and women in the United States, all who revere America and wish to keep her name without stain or reproach, will co-operate—not passively merely, but actively and watchfully to make an end of this disgraceful evil. It cannot live where the community does not countenance it.

"I have called upon the Nation to put its great energy into this war, and it has responded—responded with a spirit and a keen us for action that has thrilled the world. I now call upon it, upon its men and women everywhere, to see to it that its laws are kept inviolate, its fame untarnished.

"Let us show our utter contempt for the things that have

made this war hideous among the wars of history by showing how those who love liberty and right and justice and are willing to lay down their lives for them upon foreign fields stand ready, also, to illustrate to all mankind their loyalty to the things at home which they wish to see established everywhere as a blessing and protection to the peoples who have never known the privileges of liberty and self-government.

"I can never accept any man as a champion of liberty, either for ourselves or for the world, who does not reverence and obey the laws of our own beloved land, whose laws we ourselves have made. He has adopted the standards of the enemies of his country, whom he affects to despise. WOODROW WILSON.

COUNCIL OF NATIONAL DEFENSE

The extension of the Draft Law brings the country face to face with so serious a proposition that the people who are not going into service of the country as enlisted men in the army, must work at home, not only keep busy, but do essential work. It will not be a pleasant duty for the Rockcastle Council of Defense to take part in enforcing the work or tight ruling of Provost Marshall Gen. Crowder, but it will be necessary for them to make regular reports to Local Board in all cases where able-bodied men are not employed in doing essential work.

It will be the duty of this Council to investigate all proposed building or extensive repair work contemplated during the war. It will be their duty to pass on the questions as to whether building residences or repairing same are essential to the health of the occupants.

The Council will help the Local Appeal Agent to every ruling of the Local Board, on which there is any question raised that appears to have any merit, and have it reviewed by the District Board. In other words, it will be the intention of the Council to see that all do their duty, and that each one has a square deal during this crisis. We wish to help everybody to understand the ruling under the present laws governing registration and as far as possible, eliminate the prevalent idea that some are be-

ing shown favors, and if by close investigation it is found that any one has not received a fair and impartial rating by the Local Board, a proper appeal will be had to the District Board. So any one may make a statement in writing, and deliver or mail same to any member of the Executive Committee, and it will receive prompt attention. The names and addresses of the Executive Committee are as follows:

Victor C. Tate, Mt. Vernon, Ky.
H. H. Wood, Wildie, Ky.
John Robins, Brodhead, Ky.
G. V. Owens, Disputanta, Ky.
John W. Hilton, Pine Hill, Ky.
C. C. Davis, Mt. Vernon, Ky.

WITH THE AMERICAN ARMY ON THE VESLE FRONT.

Aug. 20 (by A. P.)—Sixty Prussians have been taken prisoners by the Americans near Fismette, north of Fismes, without either side firing a shot. The Prussians were machine gunners and all that remained of a company which had been in line less than a month.

American detachments went out a few nights ago, the location of the machine gun position having been reported by a prisoner. According to the Americans, the Prussians were waiting to be taken prisoners. The intelligence

officer who questioned the Prussians asserted that they nearly all had agreed to surrender if the slightest opportunity arose.

The Americans who took the prisoners do not claim any credit for the capture, declaring that the Prussians virtually deserted their posts.

A German prisoner taken Sunday told an intelligence officer he believed that if the battle line recedes to Germany proper the fighting spirit of the German soldiers will be greatly stimulated.

State Manager Brown has issued a statement that Kentucky subscribers \$28,137,610.06 to the War Savings Stamps, which is only 53.3 per cent of her quota, but 22 counties exceeding the amount allotted them. In this section Boyle only subscribed 65.5 per cent of her quota; Casey 15.9; Garrard did better with 82.5; Lincoln 70.8; Mercer went over the top 1.8; Madison only 61; Rockcastle 25, and Pulaski 29.5. Considering the fact that the investment could not be improved upon and that the money can be gotten on them at any time by application to the postmaster charged with their redemption, it is a matter of regret that our people did not respond more liberally. However, they still have a chance to do so, as all postmasters and many others are named to take subscriptions.

CIRCUIT COURT

Circuit court convened Monday. Judge B. J. Bethurum is on the bench, feeling very much better and looking considerably improved in health.

Commonwealth's Attorney W. N. Hippen is at his post ably taking care of the State's interests in a rigid but fair prosecution of all violations of the law. The largest sheep sale ever held in Kentucky was at Lexington last week when about 2,000 were sold under the auspices of the Kentucky Pure Bred Live Stock Association. The highest price paid was \$35.00 for a ram from Walnut Hall Farm which was bought by H. B. Jernshaw of Massachusetts.

Invest in War Savings Stamps and Liberty Bonds and then if you have anything left buy Hart Schaffner & Mark Clothes at Fish's.

FOR SALE:—Pure Bred White Wyandotte chickens—hens \$5.00 each, pullets and cockerels \$1.00 each at the Cedar Bluff Poultry Farm.

MRS. J. L. NICKLEY.

Lightning struck a big feed warehouse at Camp Taylor during the storm there on Aug. 14th and set fire to about 500 car loads of baled hay and straw entailing a loss of about \$50,000. The soldiers did fine work in keeping the flames confined to the hay and straw ricks and away from the main ammunition warehouse which was only about 300 feet away.

It is just a habit not to answer the telephone promptly. This means much loss of time. Sometimes delay is disastrous, often the line is needed for other business of importance. The Government will help us to learn to answer promptly, and make conversations short and to the point. We think they will keep the lines in working order over on Crooked Creek, and give us a new line to Brindle Ridge and extend the Cedarville line.

FOR SALE

The heirs of John Riddle, deceased, offer at private sale, the Broadhead Roller Mills located at Broadhead, Kentucky. This property is well located, practically new and well equipped in every particular, and now doing a splendid business. Terms will be made to suit purchaser. Title perfect. For particulars address, Mrs. Elizabeth J. Hall, Broadhead, Kentucky.

County seats are not entitled to any of the State aid road funds in the construction of streets, Inspector and Examiner Nat B. Sewell says in his report on the State Department of Roads. He insists that the provision, allowing towns the use of State funds, refers to towns located on inter-county seat highways between the corporate limits of any two county seats, and that the streets of county seats which form part of the inter-county seat system can not benefit by it.

Berea opens its five departments on September 11th, and will draw students from twenty states, and chiefly from this mountain region for which its work is especially adapted. The fall term is fourteen weeks, then a two weeks' vacation, followed by twelve weeks' winter, and ten weeks' spring term. Several new buildings, new courses and new instructors will insure great interest this fall. As President Wilson says, "We can not beat the Germans except with education as well as force." And as President Frost of Berea says, "Every boy may not be able to 'take up' a farm, but every boy or girl that is in earnest can take up an education."

Mr. Jack Hysinger,
Mt. Vernon, Ky.,

Dear Sir:—

The vine on clover enclosed with your letter of July 29, is dodder, a parasite of clover and alfalfa and a very destructive pest when it becomes numerous.

It should be cut at once to prevent the maturing of its seeds, otherwise the number in the land will increase. Plowing up the land and putting in corn or wheat will get rid of it in time.

I am sending you a copy of our bulletin on weeds. See pages 316-309 of the bulletin, also figures 29, 28.

Yours very truly,

H. GORMAN,

Head of Department.

The specie sent me is Field Dodder (*Cuscuta arvensis*). I do not regard it as dangerous as the common clover and alfalfa dodder (*C. epithymum*). It is objectionable, however, and should be cut as suggested.

CURE FOR DYSENTERY.

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines Iowa. "He told me in detail of what it had done for his family, but more especially for his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equal gratifying results."

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . ."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to suffer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

TRAINING DOGS TO ACT AS WAITERS TO SOLDIERS.

Trench warfare certainly interferes with the fighter's meals. After capturing the enemy's position in particular, the fighter at a loss to know he will get his regular rations; for no sooner does the enemy find himself dispossessed from his original trenches that he opens up with an intense barrage fire designed to prevent ammunition and food from reaching the new occupants.

The French army believes it has solved the problem of carrying food to men in isolated trenches, in its lunch dogs. Carrying light lunches and coffee, and even cartridges for the men in the first line trenches when the combat is hot and protracted, these splendidly-trained dogs are more certain to get through bar-

Arthur Simpson, aged about
nineteen, whose mother lives near
Spiro, this county, was instantly
killed when he came in contact
with a live electric wire in a paper
mill where he was working in

when he is supposed to have
touched the wire. His remains
were brought here Sunday morn-

It seems that after some smug-
gler of war material succeeded in

These boards make a good means

may be posted at once. A very
energetic enterprise of our bank-
ers. Thanks to Robt. F. Spence,

About Your Clothes Buying As
Well As Everything Else You Do

You may not need new clothes this fall; if you
can get along with what you have, save the money
for Liberty Bonds or War Savings Stamps. If
you have to buy, remember this:

You don't buy anything in which quality is
more important than clothes; you ought to be very
particular about what you get for your money, espe-
cially because it's so easy to make poor quality in
clothes look very good, and there's plenty of poor
quality to be had.

Get the quality in the fabrics

Fine wool fabrics are scarce; but Hart Schaffner & Marx use no
other. Their policy seems to be—"If we can't make good clothes, we
won't make any."

We are better prepared than ever to fit all sorts of figures, and
have many good things to show you.

Saving Sugar Saves Shipping

AMERICAN families would have less sugar than the
people of war torn France, if we depended entirely
on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped
to our shores. We produce about 1,000,000 tons of sugar
a year. Our imports from abroad amount to over 3,000,
000 tons a year in normal times.

The United States Food Administration asks each
family to limit its use of sugar to two pounds per month
per person for household use. The military situation de-
mands that every available ship be placed at the disposal
of the Army or Navy. When we save sugar, we save
shipping.

AMERICANS ASKED TO LIMIT USE OF SUGAR

Must Use No More Than Two Pounds
Per Person a Month if the Present
Meagre Allied Sugar Ration
Is Maintained.

Stocks Will Be Short Until Beginning of New
Year—Ration May Be Enlarged Then.

Two pounds of sugar a month—half
a pound a week—that is the sugar ra-
tion the U. S. Food Administration
has asked every American to observe
until January 1, 1919. In order to make
sure there shall be enough for our
Army and Navy, for the Allied armies
and for the civilians of those nations.

By New Year's the world sugar sit-
uation will be relieved somewhat by
the new crop. Cuban sugar of this
year's crop will be arriving in this
country.

Every available sugar source will be
drawn on by the Food Administration
during the next winter months to main-
tain sufficient stocks here to keep up
our national sugar supply. During Oc-
tober the first American beet sugar
will arrive in the markets. By the
middle of November some of our Lou-
isiana cane crop will be available. All
of this sugar and more may be needed
to keep this nation supplied on a re-
duced ration and to safeguard the Al-
lied sugar ration from still further

reduction. In Europe the present ra-
tion is already reduced to a minimum.

Our Situation.
The situation which the United
States faces in its efforts to maintain
a fair distribution of sugar to the Al-
lied world is as follows:

Sugar supplies throughout the coun-
try, in homes, stores, factories and
bakeries are at a low ebb. We must
make increased sugar shipments to the
Allies.

Production of American beet and
Louisiana cane crops have been disap-
pointing.

Porto Rico crops have been cur-
tailed.

Immense sugar stocks in Java can-
not be reached on account of the ship-
ping shortage; ships are needed for
troop movements and munitions.

Army and Navy sugar requirements
have increased as well as those from
the Allies.

Most industries using sugar have had
their allotment reduced by one-half;
some will receive no sugar.

Households should make every ef-
fort to preserve the fruit crop without
sugar, or with small amounts of sugar.
Later, when the sugar supply is larg-
er, the canned fruit may be sweetened
as it is used.

French Sugar Mills Destroyed

France must import sugar today,
most of it from this side of the ocean,
because the largest portion of French
sugar beet land is in German hands.
As a result, the French people have
been placed on a sugar ration of about
18 pounds a year for domestic use;
750,000 tons of sugar and had some
left over for export.
